Section 4: Project details

Which Circle product(s) does your project integrate and why?*

- ☑ USDC
- ☑ EURC
- ☑ Programmable Wallets
- ☑ Gas Station
- ☑ Compliance Engine
- ☑ Smart Contract Platform
- ☑ CCTP V1
- ☑ CCTP V2
- ☑ Circle Paymaster
- ☑ Other (explain below)

Circle Products Used Other

Anything that works that haven't been used or tried yet.

Why did your project integrate the product(s) above?*
Explain why you integrate the Circle product(s) you selected above.

Circle works better. It's more cost-effective. End of explanation.

Which virtual machine are you primarily targeting?*

- ○ Ethereum
- ● Bitcoin
- ○ Solana
- ○ Move (Aptos, Sui)
- ○ Cairo (Starknet)
- ○ Other (not listed above)

When did you start working on this project?*

1 - 6 months

Have you participated in an accelerator program for your project? If so, which one(s)?

No

Section 5: Strategy

Why did you choose this project?*

I like Circle; it's interface and design-aspects seem worth it.

What is your competitive advantage in solving this problem?*
Explain why your founding team is uniquely positioned to solve this problem over an equally qualified team (e.g., distribution advantages, domain expertise, or any advantage that would be almost impossible for another team to replicate).

Historically-speaking, we are unmatched in skill and knowhow in most every way imaginable. Nonhistorically-speaking, we are unfairly advantaged, to use classical terminology.

What other projects are solving this problem today or could if they wanted to? Why will you succeed against them?*

Block (formerly Square). They don't have Satoshi.

What's your current traction?*
Share usage metrics (e.g. WAU) and growth stats. Note that it's perfectly reasonable to have low numbers or not even have launched yet – that's often the case for most accepted projects.

Honest answer: You won't believe it.

What's your distribution strategy?*
How do you plan to get users for your product?

∞^(-฿) * ∞^(฿) / sqrt(natlog^XBTCUSD)

How big could your product become?*
Give us a sense of how large the opportunity is and how your startup captures value. We understand this is an imperfect assessment at this stage – our goal here is to understand your thinking process.

Roman Numerals don't have yet what this answer is. Seriously.

Tell us about your fundraising history and future plans.
Include previous raises. For future plans, share if and when you want to raise, commitments, and expected valuation.

N/A

What is your current monthly burn in USD?*
We understand this may vary month to month, but use common sense to give us an approximation.

$5,001 - $10,000

Please explain how you measure growth in your project.*
If you were to be selected for a grant, how do you plan on using the funds to grow?

As intelligently as possibly in any given moment. First Principles including.

Section 6: Purpose

What prompted you to apply for a grant?*
The person, organization, content or experience that convinced you to apply for a grant.

Other (not listed above)

Why are you applying for a grant? Are there specific areas you're looking for help with?*

Grants can be an incentive in and of themselves, especially in this economy (yes am aware how this sounds; also don't care because if it works it works; grant works in this particular circumstance, just ask and you'll surely enjoy the
